

CODEALPHA PYTHON PROGRAMMING INTERNSHIP

Project Title: [Python Programming]

Submitted By: Madeeha Asif

Student ID: CA/DF1/111089

Date: 11 June 2026

INTRODUCTION:

This project was developed as part of the CodeAlpha Python Programming Internship. The project demonstrates the use of Python programming concepts and problem-solving skills.

PROJECT OBJECTI

- Learn Python programming concepts.
- Improve coding and logical thinking skills.
- Develop a practical Python application.

Task01:

```
code.py codealpha.py X code.py
C:\> Users > HOME > codealpha.py > ...
1  import random
2
3  words = ["apple", "robot", "python", "laptop", "intern"]
4  word = random.choice(words)
5  guessed = []
6  attempts = 5
7
8  print("Welcome to Hangman Game!")
9
10 while attempts > 0:
11     display = ""
12
13     for letter in word:
14         if letter in guessed:
15             display += letter
16         else:
17             display += "_"
18
19     print("\nWord:", display)
20
21     if "_" not in display:
22         print("🎉 You won!")
23         break
24
25     guess = input("Guess a letter: ").lower()
26
27     if guess in guessed:
28         print("Already guessed!")
29     elif guess in word:
30         guessed.append(guess)
```

```

if "_" not in display:
    print("🏆 You won!")
    break

guess = input("Guess a letter: ").lower()

if guess in guessed:
    print("Already guessed!")
elif guess in word:
    guessed.append(guess)
    print("Correct!")
else:
    attempts -= 1
    print("Wrong! Attempts left:", attempts)

if attempts == 0:
    print("💀 Game Over! Word was:", word)

```

Output:

```

PS C:\Users\HOME> & C:/Users/HOME/AppData/Local/Programs/Python/Python311/python.exe c:/Users/HOME/codealpha.py
Welcome to Hangman Game!

Word: _____
Guess a letter: a
Correct!

Word: a_____
Guess a letter: h
Wrong! Attempts left: 5

Word: a_____
Guess a letter: p
Correct!

Word: app____
Guess a letter: b
Wrong! Attempts left: 4

Word: app____
Guess a letter: l
Correct!

Guess a letter: e
Correct!

Word: apple
🏆 You won!
PS C:\Users\HOME> & C:/Users/HOME/AppData/Local/Programs/Python/Python311/python.exe c:/Users/HOME/codealpha.py
Welcome to Hangman Game!

Word: _____
Guess a letter: 

```
